

Accessibility Statement

פרמיום קאזה בע"מ, operating and managing the <https://ofrigeorge.com>, is committed to ensuring the accessibility of its digital services to all citizens, with a special emphasis on improving access for individuals with disabilities.

Significant resources have been allocated to guarantee the accessibility of our website, aiming to enhance the experience for individuals with diverse needs, including but not limited to motor disabilities, cognitive impairments, myopia, blindness or color blindness, hearing impairments, and the elderly population.

The implementation of website accessibility has been carried out by "VEE - Website Accessibility." Our website has been optimized for accessibility at level AA, adhering to the guidelines established by the Equal Rights for Persons with Disabilities Regulations WCAG2.2.

Vee Company, the provider of website accessibility solutions, has ensured compatibility with popular web browsers and mobile devices. Extensive testing has been conducted using Jaws and NVDA screen readers. Additionally, we have implemented WCAG2.2 recommendations by the W3C organization to further enhance accessibility standards.

Our website facilitates a straightforward process to switch to accessible mode. An accessibility icon is prominently placed on each webpage. Clicking on the icon opens the accessibility menu, allowing users to select desired accessibility functions. Please allow the page to load after making your selection to ensure the appropriate changes are applied.

To revert the changes, simply click on the corresponding function in the menu again. Resetting the accessibility settings is also an option. The accessibility software is compatible with popular web browsers, such as Chrome, Firefox, Safari, and Opera.

For an optimal experience with screen reader software, we recommend using the latest version of NVDA. The website's design includes a semantic structure supporting assistive technologies and adheres to accepted usage patterns for keyboard navigation.

Several improvements have been made to enhance accessibility on the site, including adaptation for screen readers, clear and intuitive navigation, organized content presentation, optimization for modern web browsers, compatibility with various screen sizes, and consistent structure across all pages. Alt text has been included for all images.

The accessibility software provides essential functionalities, including adaptation for screen readers, flickering prevention, direct content access, keyboard navigation adjustment, text size adjustment, enhanced spacing, contrast and color options, legible font selection, highlighting links, reading guide, customizable mouse cursor, and image descriptions.

Exclusions:

While diligent efforts have been made to ensure the accessibility of all pages and elements, it is acknowledged that there may still be instances where certain parts or functionalities are not fully accessible. Continuous efforts are underway to enhance accessibility and ensure inclusivity for all individuals, including those with disabilities.

If you encounter accessibility issues on the website, please contact us with complete details, including a problem description, the action you attempted, the link to the page you browsed, browser type and version, operating system, and the type of assistive technology used.
